Human HAX-1 antibody

Catalog Number: ATGA0156

PRODUCT INFORMATION

Catalog number

ATGA0156

Clone No.

AT3C5

Product type

Monoclonal Antibody

UnitProt No.

000165

NCBI Accession No.

NP 006109

Alternative Names

HCLS1 associated protein X-1, HS1BP1, HCLSBP1, HCLS1 (and PKD2) associated protein

PRODUCT SPECIFICATION

Antibody Host

Mouse

Reacts With

Human

Concentration

1mg/ml (determined by BCA assay)

Formulation

Liquid in. Phosphate-Buffered Saline (pH 7.4) with 0.02% Sodium Azide, 10% glycerol

Immunogen

Recombinant human HAX1 (1-279aa) purified from E. coli

Isotype

IgG2b kappa

Purification Note

By protein-G affinity chromatography

Application

ELISA, WB, ICC/IF

Usage

The antibody has been tested by ELISA, Western blot and ICC/IF analysis to assure specificity and reactivity. Since application varies, however, each investigation should be titrated by the reagent to obtain optimal results.

Storage

NKMAXBio we support you, we believe in your research

Human HAX-1 antibody

Catalog Number: ATGA0156

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

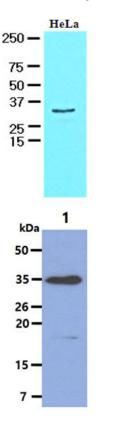

HAX1 is known to associate with hematopoietic cell-specific Lyn substrate 1 (HS1), one of the substrates of receptor-coupled tyrosine kinases activated during clonal expansion and deletion in lymphoid cells. It also interacts with the product of the polycystic kidney disease 2 (PKD2) gene and with the F-actin-binding protein, cortactin. HAX1 is also reported to bind to hairpin structures in vimentin and DNA polymerase beta mRNAs, so may play a role in mRNA stability and transport. It may also function in promoting cell survival. Defects in HAX1 are the cause of autosomal recessive severe congenital neutropenia 3 (SCN3) also called Kostmann disease.

DATA

Western blot analysis (WB)

The cell lysate of HeLa(30ug) was resolved by SDS-PAGE, transferred to PVDF membrane and probed with anti-human HAX-1 antibody (1:1000). Proteins were visualized using a goat anti-mouse secondary antibody conjugated to HRP and an ECL detection system.

Human HAX-1 antibody

Catalog Number: ATGA0156

ICC/IF analysis of HAX-1 in HeLa cells. The cell was stained with ATGA0156 (1:100). The secondary antibody (green) was used Alexa Fluor 488. DAPI was stained the cell nucleus (blue).
