

# Recombinant human ARLTS1/ARL11 protein

Catalog Number: ATGP1130

## PRODUCT INFORMATION

**Expression system**

E.coli

**Domain**

1-196aa

**UniProt No.**

Q969Q4

**NCBI Accession No.**

NP\_612459

**Alternative Names**

ADP-ribosylation factor-like 11, ARLTS1, ADP ribosylation factor like GTPase 11, ADP-ribosylation factor-like tumor suppressor gene 1

## PRODUCT SPECIFICATION

**Molecular Weight**

23.6 kDa (216aa) confirmed by MALDI-TOF

**Concentration**

0.5mg/ml (determined by Bradford assay)

**Formulation**

Liquid in. 20mM Tris-HCl buffer (pH 8.0) containing 5mM DTT, 30% glycerol, 100mM NaCl, 1mM EDTA

**Purity**

> 90% by SDS-PAGE

**Tag**

His-Tag

**Application**

SDS-PAGE

**Storage Condition**

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

## BACKGROUND

**Description**

ARL11 (ADP-ribosylation factor-like protein 11), is a member of the ARF family of the Ras superfamily of small GTPases that are known to be involved in multiple regulatory pathways altered in human carcinogenesis. ARFs are highly conserved guanine nucleotide binding proteins that enhance the ADP-ribosyltransferase activity of cholera toxin. ARFs are important in eukaryotic vesicular trafficking pathways and they play an essential role in the activation of phospholipase D (PC-PLD). ARL11 is thought to function as a tumor suppressor that may play a

# Recombinant human ARLTS1/ARL11 protein

role in the regulation of apoptosis. Recombinant human ARL11 protein, fused to His-tag at N-terminus, was expressed in E. coli and purified by using conventional chromatography techniques.

## DATA

### SDS-PAGE

3ug by SDS-PAGE under reducing condition and visualized by coomassie blue stain.
