

Recombinant human Leukotriene A4 Hydrolase/LTA4H protein

Catalog Number: ATGP3071

PRODUCT INFORMATION

Expression system

E.coli

Domain

1-611aa

UniProt No.

P09960

NCBI Accession No.

NP_000886

Alternative Names

Leukotriene A-4 hydrolase isoform1, LTA4, Leukotriene A4

PRODUCT SPECIFICATION

Molecular Weight

71.7 kDa (634aa)

Concentration

0.25mg/ml (determined by Bradford assay)

Formulation

Liquid in. Phosphate-Buffered Saline (pH 7.4) containing 20% glycerol, 1mM DTT

Purity

> 90% by SDS-PAGE

Tag

His-Tag

Application

SDS-PAGE

Storage Condition

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

LTA4H also known as Leukotriene A-4 hydrolase is a bifunctional enzyme which converts leukotriene A4 to leukotriene B4 and acts as an aminopeptidase. This enzyme belongs to the family of hydrolases, specifically those acting on ether bonds (ether hydrolases). It participates in arachidonic acid metabolism. Recombinant human LTA4H, fused to His-tag at N-terminus, was expressed in E. coli and purified by using conventional chromatography techniques.
